

CELERA

THE BEST HINGE
IN ITS CATEGORY

CELERA

THE BEST HINGE IN ITS CATEGORY

Celera is the new clamp hinge for doors, in which reliability and quick assembly combine perfectly.

Celera was designed to be a top-of-the-range hinge in its category for reliability, technological innovations and competitiveness. Celera is supplied with pre-assembled fixing plates and therefore it can be quickly installed on both the sash and the frame during the door or window positioning.

Celera can be adjusted in terms of **width (± 1 mm)**, with the door installed and with standard tools: with a simple Allen key it is possible to make all the adjustments. The newly designed plug ensures that the side adjustment is maintained over time, even at the maximum load capacity permitted.

Celera is featured by a high resistance to burglar, thanks to the washer integrated in the pin.

The Celera clamp hinge for door is **CE marked according to EN1935** and is suitable for the construction of doors with a maximum load capacity of **100 Kg** with two hinges and **120 Kg** with three hinges.

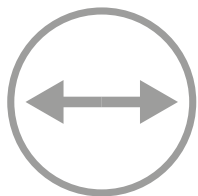

Quick and easy assembly

Celera is supplied with pre-assembled fixing plates and therefore it can be quickly installed on both the sash and the frame during the door or window positioning.

For sashes up to 120 kg

With Celera it is possible to construct sashes weighing up to 100 kg with 2 hinges and up to 120 kg with 3 hinges.

Side adjustment

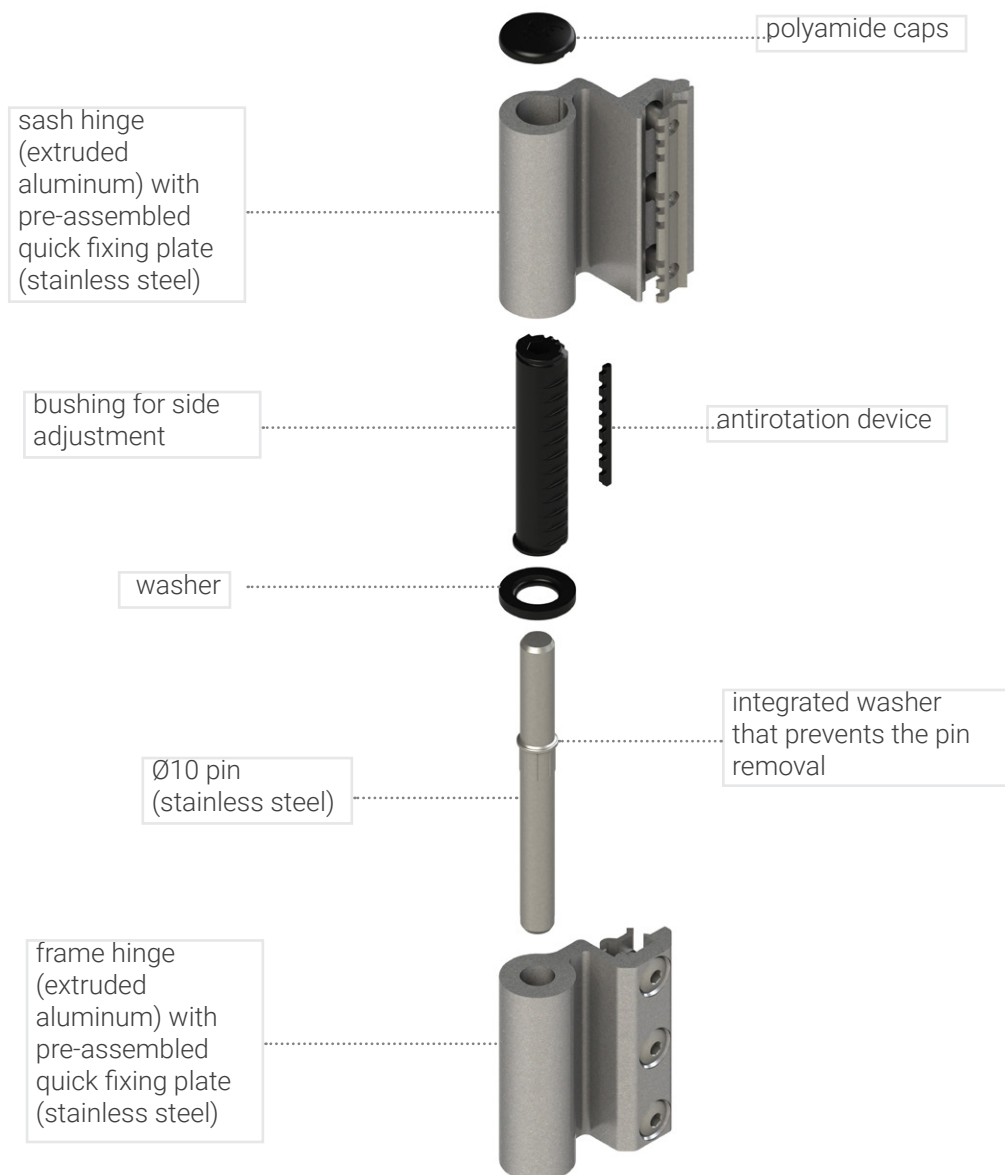

The hinge ± 1 mm side adjustment can be made, ensuring the correct positioning of the door over time, even at the maximum load possible. The adjustment can be made using hex head key (CH 6).

The plug has been designed to lock the bushing once the door adjustment has been completed.

CE marking

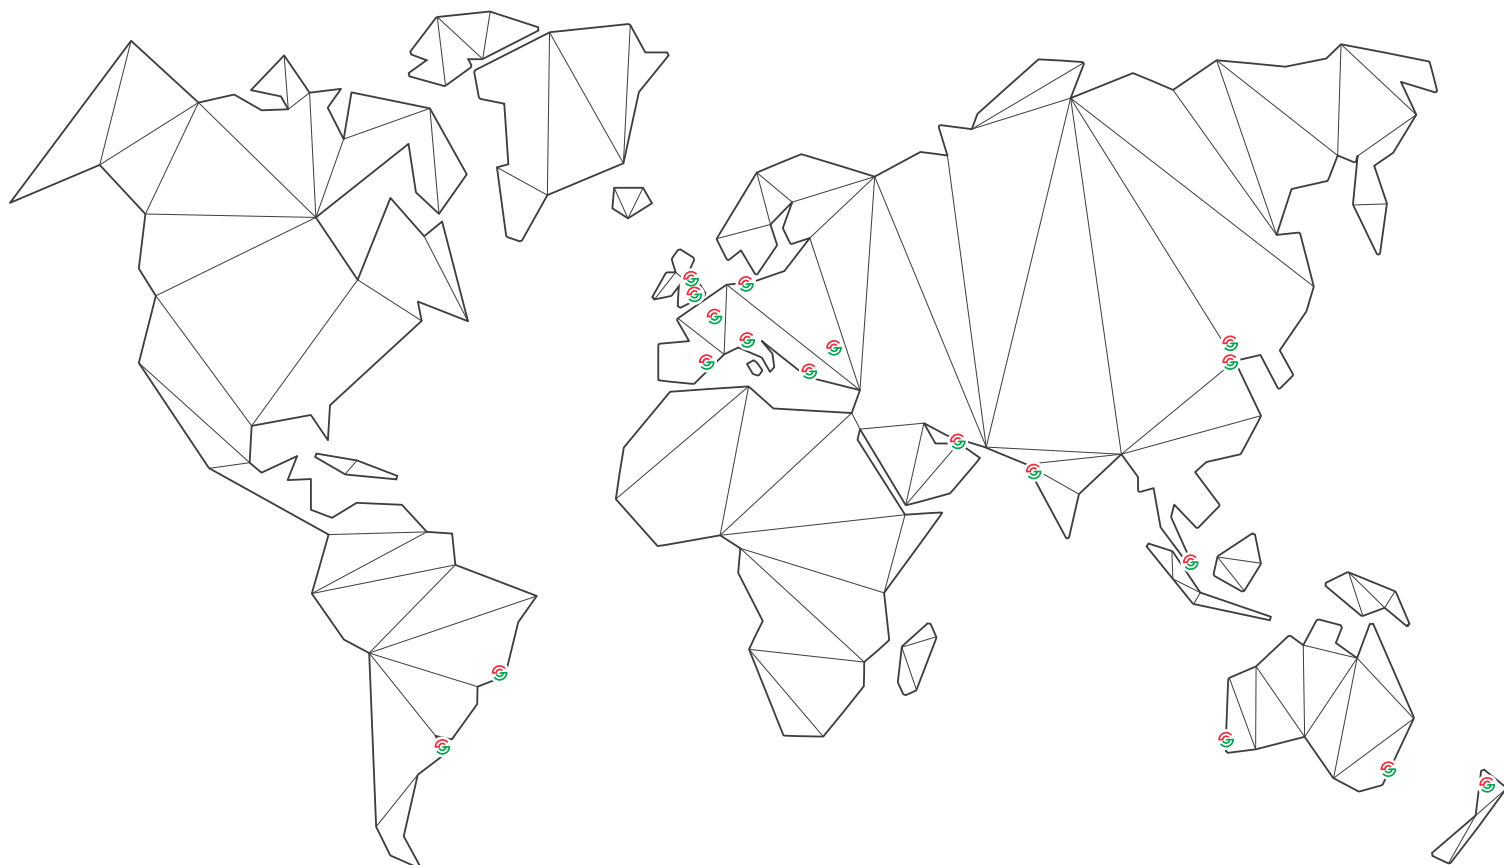

The hinges of this range will be CE marked according to EN1935 and also applicable on safety exits.

CELERA CODES

Item code	Description	Notes	Items per pack
00681	Celera Hinge	E.G.	20
00682	Celera Hinge	R40	20
