## Profilo Aziendale Company profile

Silmec nasce nel 1969 producendo griglie ed accessori per forni. L'esperienza acquisita nella lavorazione del filo metallico e delle lamiere, permette, qualche anno dopo, anche la produzione di cassette postali. Nel 1975, il successo è tale da rendere necessaria l'apertura di un reparto specifico, che nel corso degli anni vedrà un trend di crescita continuo. L'intraprendenza della famiglia Pellizzari prosegue con una serie di investimenti per adeguare tecnologicamente gli impianti, industrializzando i propri processi produttivi ed organizzando in modo sinergico i vari dipartimenti.

Negli anni, Silmec si trasforma in un'importante realtà economica del nord-est, con una forte leadership in Italia sul settore della custodia e distribuzione della posta, grazie anche allo sviluppo dei casellari per condomini e cassette di deposito.

Attualmente i cicli produttivi, dalla progettazione alla realizzazione, avvengono completamente all'interno degli stabilimenti Silmec, assicurando un concetto, un progetto e una produzione totalmente italiana. Silmec dispone di 35.000 metri quadrati di cui 13.000 coperti e utilizza solo materie prime fornite da principali aziende italiane. La dedizione al lavoro tipica delle terre venete, lo studio e il know-how dei collaboratori, e un processo di lavoro ottimizzato in tutti i reparti, permettono una flessibilità che soddisfa prontamente i clienti Silmec.

Silmec started operating in 1969 as a manufacturer of oven grills and accessories. Thanks to the experience acquired in the processing of metal wire and sheet metal, the company began to produce letterboxes a few years later. In 1975, the company's continued success led to the opening of a specialised department, which would grow constantly over the forthcoming years. The entrepreneurial spirit of the Pellizzari family continued with a series of investments aimed at upgrading the technological standard of the plants, by industrialising the company's production processes and organising the various departments synergistically. Over the years, Silmec evolved into a major player in North-Eastern Italy, boasting a strong leadership in Italy for mail storage and distribution solutions, also thanks to the development of modular letterbox units for apartment blocks and box lockers.

Currently, the production cycles – from the design to the construction – are carried out entirely in-house at the Silmec plants. In other words, the concept, design and production are entirely Italian. Silmec extends over 35,000 square metres, of which 13,000 covered, and the company only uses raw materials supplied by major Italian companies. The dedication to work that distinguishes the people of Veneto, combined with research, the know-how of collaborators and work processes optimised in all departments ensure a flexibility that fully satisfies Silmec's customers.

## Produzione 100% Made in Italy 100% 'Made in Italy' production

Tutti i nostri prodotti sono al 100% realizzati in Italia con sistemi produttivi automatizzati e all'avanguardia.

All our products are entirely made in Italy with automated and cutting-edge production systems.

## Personalizzazione Customisation

I nostri modelli sono versatili e personalizzabili nei colori, finiture ed accessori.

Our models are versatile and can be customised with regard to colours, finishes and accessories.

## Design e ampia gamma Design and broad range

Un reparto progettazione specializzato per essere sempre all'avanguardia verso nuove tendenze estetiche.

A specialised design department to keep up with new aesthetic trends.

## Qualità e resistenza Quality and resistance

L'alta qualità dei materiali utilizzati e la grande cura costruttiva conferiscono un'elevatissima resistenza nel tempo.

The premium quality of the materials used and their refined construction make the products extremely durable.

## Installazione facile e veloce Easy and quick installation

I nostri prodotti sono corredati di accessori per un'installazione facile e veloce.

Our products are supplied with accessories to ensure easy and quick installation.

## Consegna rapida Rapid delivery

La nostra Azienda vanta tempi di consegna tra i più brevi del mercato.

Our company boasts one of the quickest lead times on the market.

## Assistenza post-vendita After-sales assistance

Servizio post-vendita affidabile per qualsiasi necessità per un servizio sempre rapido e veloce.

A reliable after-sales assistance service for rapidly meeting any necessity.

## Soluzioni di valore Precious solutions

### Soluzioni espositive per il punto vendita Display solutions for points of sale

Grazie al nuovo packaging di colore blu, sarà possibile riconoscere a colpo d'occhio le nostre cassette. Caratterizzato dal design moderno, è studiato in modo da proteggere il contenuto e mantenerlo in ottime condizioni. È inoltre dotato di una finestrella per scegliere facilmente il prodotto con la colorazione desiderata senza bisogno di aprire la confezione.

In esclusiva per i nostri rivenditori autorizzati abbiamo messo a disposizione due nuovi pannelli espositivi con due raffigurazioni diverse tra loro, ma con un unico obiettivo comune: rendere facilmente riconoscibile il nostro marchio all'interno del punto vendita. Con il primo presentiamo la vasta gamma di cassette postali, mentre il secondo invita all'utilizzo del configuratore con l'assistenza di un esperto per permettervi di richiedere un preventivo il più vicino possibile alle vostre richieste.

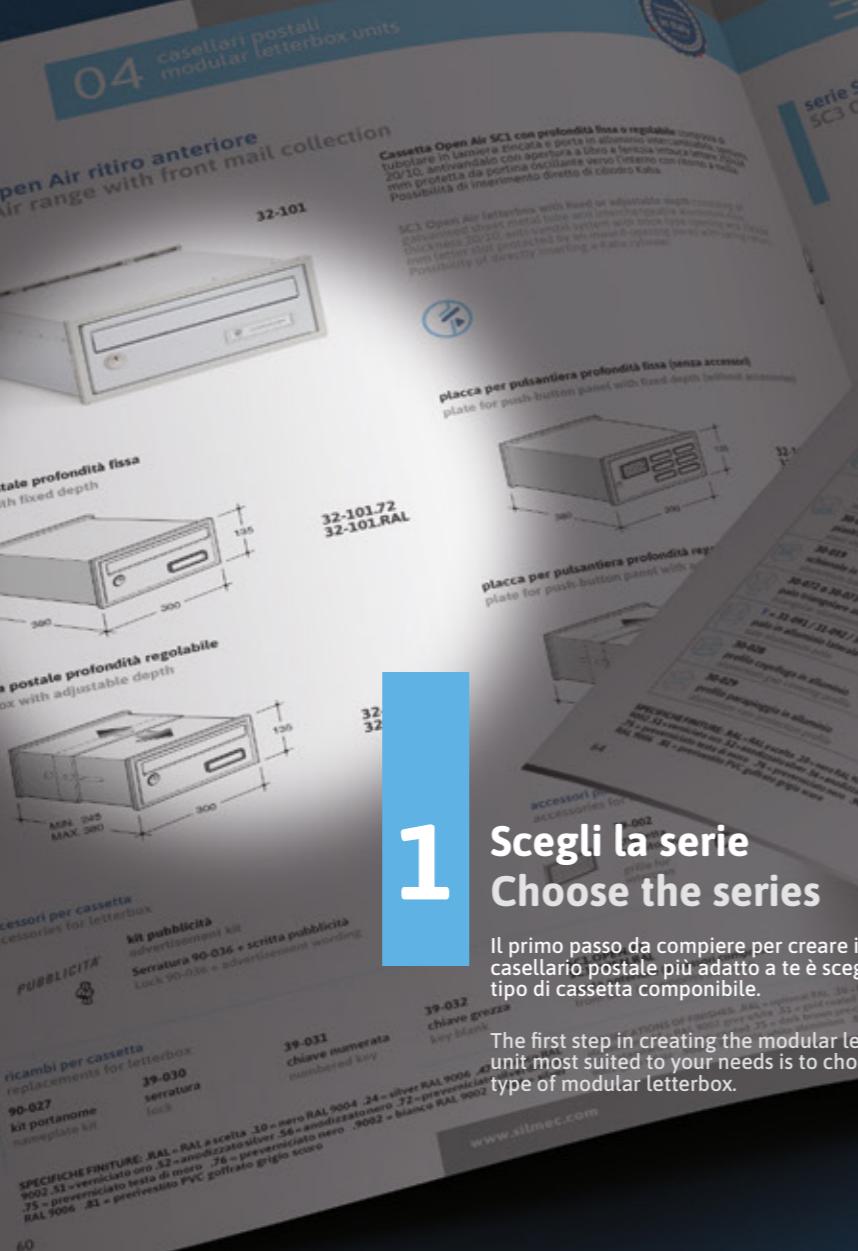

Thanks to their new blue-coloured packaging, our boxes are readily identifiable. Characterised by its modern design, the packaging is designed to protect the contents and keep the product in excellent condition. It also has an inspection window to easily choose the product of the desired colour without having to open the package.

We have made available exclusively to our authorised dealers two new display panels that contain two different graphic depictions but share a common goal: to make our brand easily identifiable within the point of sale. The first image presents the extensive range of letterboxes, while the second image promotes use of the configurator with the aid of an expert to help request a quotation that matches your requests as closely as possible.

# cesti porta pubblicità advertisement holders

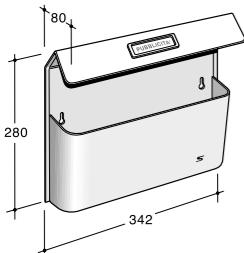

I cesti porta pubblicità sono studiati per raccogliere volantini e dépliant con lo scopo di dividerli dalla corrispondenza ordinaria. In questo modo i documenti importanti rimangono ben separati dalla pubblicità condominiale. Sono disponibili in diversi materiali, colori e dimensioni per soddisfare ogni esigenza. Già predisposti per l'installazione a muro, sono adatti sia per l'interno che per l'esterno.

Advertisement holders are designed to collect leaflets and brochures in order to separate them from ordinary correspondence. This ensures that important documents are kept separate from advertisements intended for the apartment block residents. They are available in various materials, colours and dimensions to satisfy any need. Already configured for wall mounting, they are suitable for both indoor and outdoor installation.

# bacheche notice boards

Le bacheche di nostra produzione rispondono alla necessità di appendere avvisi e documenti o custodire le chiavi in sicurezza. Disponibili in due versioni di colori e in diverse dimensioni, sono ideali per l'installazione all'interno o all'esterno in luoghi protetti dalla pioggia. Gli spigoli arrotondati e la porta in plexiglass le rendono sicure e resistenti. Tutte le bacheche sono dotate di serratura con la stessa numerazione.

The notice boards we produce can be used to affix notices and documents or store keys safely. Available in two colour versions and in several sizes, they are suitable for being installed either indoors or outdoors in areas protected from rain. The rounded corners and plexiglass door make them safe and resistant. All the notice boards come with a lock having the same number.

# casellari postali modular letterbox units

I nostri casellari sono studiati per soddisfare ogni esigenza in fatto di gusto, stile e resistenza. Sono disponibili in pronta consegna oppure prodotti su misura secondo le esigenze del cliente con tempi di produzione particolarmente rapidi. Per richiedere un casellare personalizzato è sufficiente specificare il numero di cassette, il luogo di installazione (su recinzione, appeso a muro, autoportante...), la colorazione desiderata e lo spazio massimo disponibile per la posa. Sul nostro sito [www.silmec.com](http://www.silmec.com), nella sezione "configuratore", è possibile richiedere un preventivo in modo facile e veloce.

Our modular letterbox units are designed to satisfy any need in terms of taste, style and resistance. They are available for instant delivery or custom-made according to the customer's requirements, with particularly fast lead times. To request a customised modular letterbox unit, simply specify the number of letterboxes, the place of installation (on fence, wall-mounted, free-standing, etc.), the desired colour and the maximum space available for installation. On our website [www.silmec.com](http://www.silmec.com), under the 'configurator' section, it is possible to request a quotation easily and rapidly.

## La Normativa europea The European standard

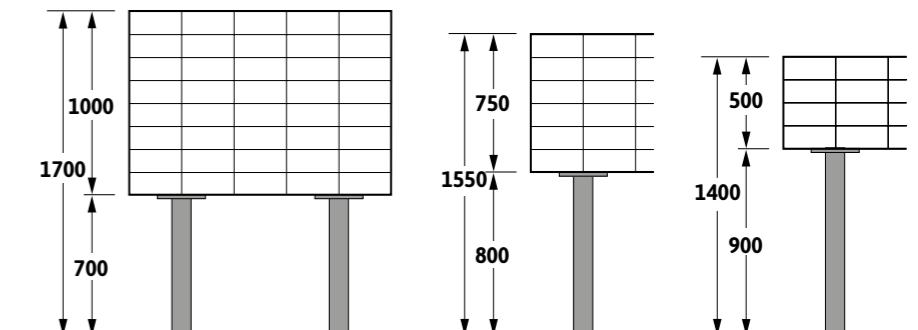

La Norma prevede una regolamentazione per le cassette postali circa dimensioni, impossibilità di effrazione, salvaguardia della privacy e sicurezza delle persone. Riportiamo a seguire un estratto:

La cassetta deve contenere una busta A4 senza problemi di danneggiamento o piegatura. Una volta introdotta la corrispondenza la cassetta deve essere dotata di dispositivo antiprelievo che ne ostacoli la presa da parte di persone non autorizzate; lo sportello deve avere una resistenza di almeno 15DAN, capacità di resistenza contro la corrosione secondo la norma DIN EN 1670. Per quanto riguarda l'installazione, le cassette devono essere ben accessibili al portabriefe e recare ben visibile il nome dell'intestatario al fine di garantire la privacy, non ci devono essere spionini d'ispezione nelle cassette. Le cassette devono essere installate al limite della proprietà, sulla pubblica via o in un luogo accessibile liberamente. Le cassette devono essere raggruppate in un unico punto di accesso in caso di edifici plurifamiliari, complessi commerciali, edifici adibiti a sede d'impresa.

The standard governs letterboxes with regard to their dimensions, theft protection, privacy protection and the safety of people. Below is an extract:

The letterbox must contain a size-A4 envelope that must be deliverable without bending or damage. Once the correspondence is introduced, the letterbox must have an anti-collection device to prevent unauthorised people from retrieving the mail; the door must have a resistance of at least 15 DAN, and a corrosion resistance in accordance with the DIN EN 1670 standard. With regard to their installation, the letterboxes must be easily accessible to the postman and the addressee's name must be clearly visible on them; moreover, to guarantee privacy there must be no viewing windows on the letterboxes. The letterboxes must be installed on the property's boundary, on the public road or in a freely accessible location. The letterboxes must be grouped in a single access point in case of multi-family buildings, shopping complexes and buildings housing company head offices.

**Scegli l'altezza giusta in base  
alla grandezza del cassellare!**  
Choose the right height on the basis of  
the modular unit's dimensions!

## Accessori di rifinitura Finishing accessories

**50-097**

**Kit pali standard**  
Standard pole kits

Composto da due pali e due scarpette per palo da fissare alla base. (non assemblate)

Kit da utilizzare con casellari standard per installazione autoportante su terreno o su muretto.

### ALTEZZA

I pali vengono forniti solo di altezza 1500 mm con possibilità di modificarla tagliandoli a misura nella parte inferiore.

Soluzione ideale per poter installare il casellare anche su muretto di recinzione con l'altezza dei pali desiderata.

Consisting of two poles and two base plates to be fastened to the base (not assembled).

Kit designed for use with standard modular letterbox units for free-standing installation on the ground or on low walls.

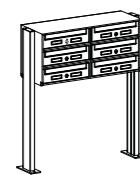

### HEIGHT

The poles are supplied only with 1500 mm height, which can be reduced by cutting the lower section of the poles.

An ideal solution for installing the modular unit also on boundary walls with the desired pole height.

## Open Air 300 modular letterbox units

Cassetta postale autoportante Open Air 300 composta di cassette modello SC1 in grigio ferro micaceo con due pali triangolari, piastra e mantello.  
Open Air 300 free-standing modular letterbox unit consisting of model SC1 micaceous iron grey letterboxes with two triangular poles, plate and shell.

Cassetta postale incassato a muro passante composta di cassette modello SC3 e completo di profilo coprifuga e sgocciolatoio.

Recessed wall-mounted modular letterbox unit consisting of model SC3 letterboxes and inclusive of gap covering profile and drip profile.

Cassette componibili Open Air dal design moderno, realizzate con materiali inossidabili e particolarmente resistenti agli agenti atmosferici. Rivestite da telaio in materiale plastico ignifugo (ASA) indeformabile, resistente ai raggi U.V. e sagomato anti pioggia, sono caratterizzate dall'assenza di spioncini a tutela della privacy. Le cassette postali vengono fornite anche sciolte e corredate da elementi brevettati per una facile componibilità. Tutte le placche per pulsantiera sono provviste di portalampe per illuminazione al buio. Disponibile, su richiesta, nella versione con sportellino impostazione apribile verso l'esterno.

Open Air modular letterboxes characterised by their modern design, made of stainless materials and highly resistant to the elements. Covered by a non-deformable fire-retardant plastic (ASA) frame resistant to UV rays and adequately shaped to drain rainwater, they are characterised by the lack of viewing windows to safeguard privacy. The letterboxes are also supplied separately and accompanied by patented elements to facilitate modular installation. All the plates for push-button panels are equipped with a lamp holder for illumination in darkness. On request, the product can be supplied in the version with outward-opening letter slot.

Cassetta postale composta di cassette Open Air 300 modello SC1 verniciate RAL colorazione corten e completo di mantello e base.

Casellare postale incassato su serramento composto da cassette SC6 e completo di mantello, profilo coprifuga e sgocciolatoio.

Recessed fixture-mounted modular letterbox unit consisting of model SC6 letterboxes and inclusive of shell, gap covering profile and drip profile.

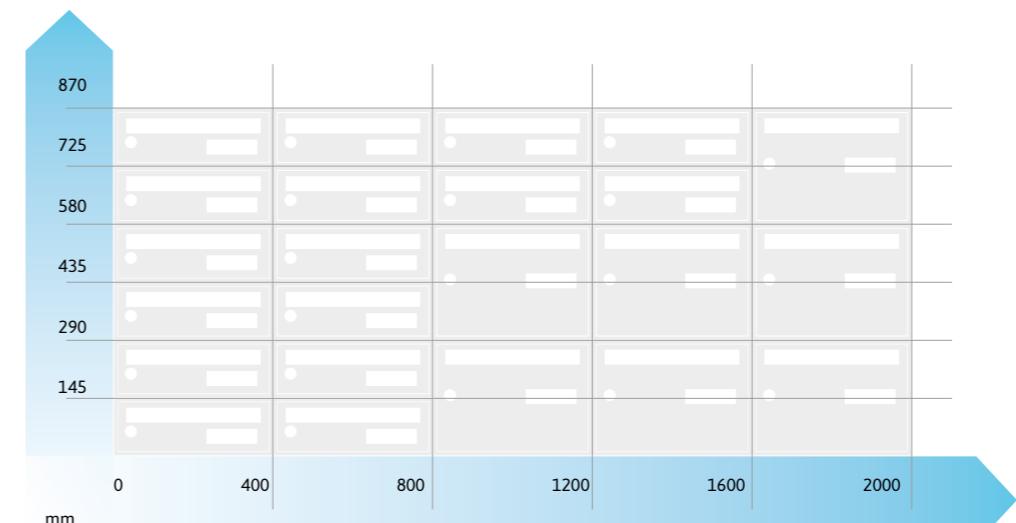

**configura il tuo casellario**  
configure your modular letterbox unit

Il montaggio delle cassette avviene tra i modelli della stessa serie.  
Indicare al momento dell'ordine oltre al modello il numero di cassette e la loro disposizione (base per altezza).

Il casellario può essere completato con grigliette per citofono e pulsanti per campanelli.

The letterboxes are assembled by choosing models of the same range.  
When making the order, specify the model, number of letterboxes and their arrangement (base by height).

The modular letterbox unit can be completed with intercom grilles and buttons for bells.

Profondità fissa 250 mm  
Importante: le misure del foro, per i casellari con profilo coprifuga incassati su muro, vanno maggiorate di 15 mm.

Fixed depth 250 mm  
Please note: the measurements of the opening, for recessed wall-mounted modular units with gap covering profile, must be increased by 15 mm.

Casellare incassato a muro composto da cassette SC5 in alluminio preverniciato silver, completo di profilo coprifuga e sgocciolatoio.

### configura il tuo casellario configure your modular letterbox unit

Il montaggio delle cassette avviene tra i modelli della stessa serie.  
Indicare al momento dell'ordine oltre al modello il numero di cassette e la loro disposizione (base per altezza).

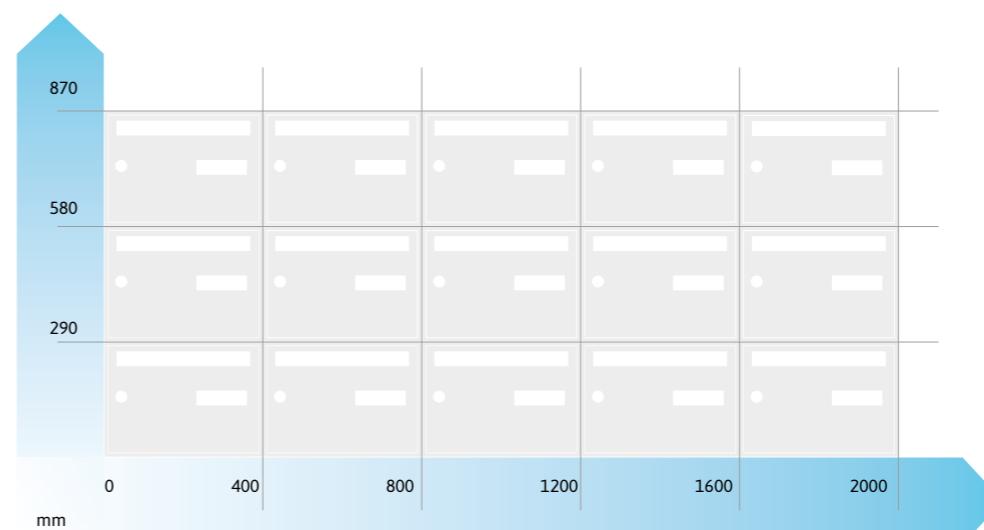

Il casellario può essere completato con grigliette per citofono e pulsanti per campanelli.

The letterboxes are assembled by choosing models of the same range.  
When making the order, specify the model, number of letterboxes and their arrangement (base by height).

The modular letterbox unit can be completed with intercom grilles and buttons for bells.

Profondità fissa 125 mm  
Importante: le misure del foro, per i casellari con profilo coprifuga incassati su muro, vanno maggiorate di 15 mm.

Fixed depth 125 mm  
Please note: the measurements of the opening, for recessed wall-mounted modular units with gap covering profile, must be increased by 15 mm.

Casellare autoportante composto da cassette SC5/DP in grigio ferro micaceo, completo di pali laterali, mantello e base.

Free-standing modular letterbox unit consisting of SC5/DP micaceous iron grey letterboxes, inclusive of side poles, shell and base.

# casellari SC Classic 300

## SC Classic 300 modular letterbox units

Cassellare serie Sc Classic 300 autoportante composto da cassette SC1 in alluminio preverniciato silver, completo di pali laterali, mantello e base.  
SC Classic 300 free-standing modular letterbox unit consisting of SC1 silver pre-coated aluminium letterboxes, inclusive of side poles, shell and base.

Cassellare postale inserito in una recinzione composto da cassette SC3 vernicate marrone RAL, completo di mantello e piastra.  
Fence-mounted modular letterbox unit consisting of SC3 RAL brown-coated letterboxes, inclusive of shell and plate.

Cassellare incassato a muro composto da cassette SC7 vernicate bianco RAL, completo di profilo coprifuga e sgocciolatoio.  
Recessed wall-mounted modular letterbox unit consisting of SC7 RAL white-coated letterboxes, inclusive of gap covering profile and drip profile.

Cassette componibili SC Classic composte di tubolare in lamiera zincata, porta in alluminio e telaio nero in ABS indeformabile e resistente ai raggi U.V., caratteristico di questa serie. Dotate di spioncino per controllare la presenza di posta dall'esterno e disponibili in diverse dimensioni e colorazioni, dal silver di serie alla vasta gamma di colori RAL. Le cassette postali vengono fornite anche sciolte e corredate da elementi brevettati per una facile componibilità. Tutte le placche per pulsantiera sono provviste di portalampada per illuminazione al buio. Disponibile, su richiesta, nella versione con sportellino impostazione apribile verso l'esterno.

SC Classic modular letterboxes made of galvanised sheet metal tube, with aluminium door and black non-deformable ABS frame resistant to UV rays, a distinctive feature of this range. Equipped with a viewing window to check for mail from the outside. Available in various sizes and colours, including standard silver or the colours of the extensive RAL range. The letterboxes are also supplied separately and accompanied by patented elements to facilitate modular installation. All the plates for push-button panels are equipped with a lamp holder for illumination in darkness. On request, the product can be supplied in the version with outward-opening letter slot.

## configura il tuo casellario configure your modular letterbox unit

Il montaggio delle cassette avviene tra i modelli della stessa serie.  
Indicare al momento dell'ordine oltre al modello il numero di cassette e la loro disposizione (base per altezza).

Il casellario può essere completato con grigliette per citofono e pulsanti per campanelli.

The letterboxes are assembled by choosing models of the same range.  
When making the order, specify the model, number of letterboxes and their arrangement (base by height).

The modular letterbox unit can be completed with intercom grilles and buttons for bells.

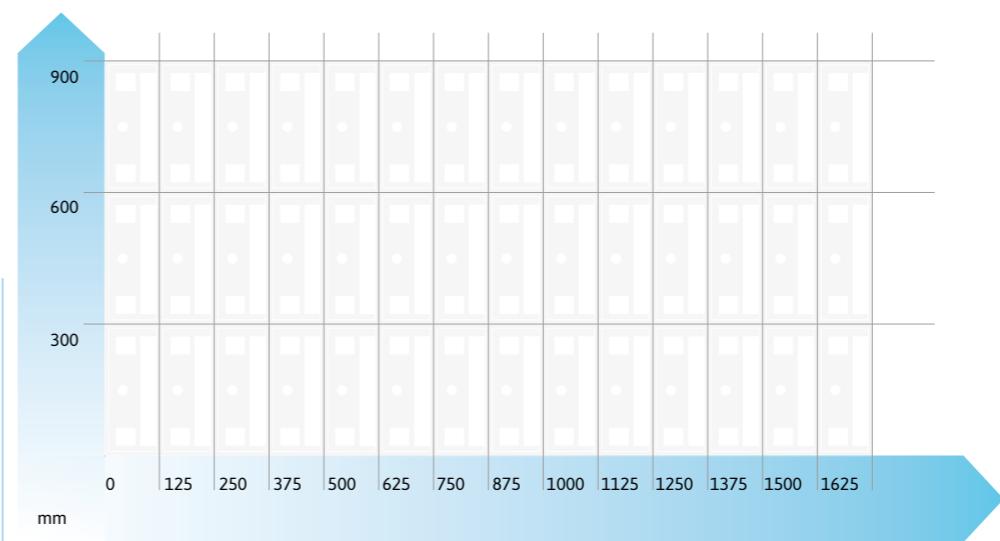

3 Profondità disponibili:  
200 / 280 / 335 mm

Importante: le misure del foro, per i casellari con profilo coprifuga incassati su muro, vanno maggiorate di 15 mm.

3 depths available:  
200 / 280 / 335 mm

Please note: the measurements of the opening, for recessed wall-mounted modular units with gap covering profile, must be increased by 15 mm.

**SPECIFICHE FINITURE:** .RAL = RAL a scelta .10 = nero RAL 9004 .24 = silver RAL 9006 .47 = bianco RAL 9002 .51 = verniciato oro .52 = anodizzato silver .56 = anodizzato nero .72 = preverniciato silver disserie .75 = preverniciato testa di moro .76 = preverniciato nero .9002 = bianco RAL 9002 .9006 = silver RAL 9006 .81 = prerivestito PVC goffrato grigio scuro

# casellari SC Classic 400

## SC Classic 400 modular letterbox units

Cassette componibili SC Classic composte di tubolare in lamiera zincata, porta in alluminio e telaio nero in ABS indeformabile e resistente ai raggi U.V. Dotate di spioncino per controllare la presenza di posta dall'esterno e disponibili in diverse dimensioni e colorazioni. Adatte a chi riceve con frequenza riviste poiché ospitano comodamente buste formato A4. Le cassette postali vengono fornite anche sciolte e corredate da elementi brevettati per una facile componibilità. Tutte le placche per pulsantiera sono provviste di portalampada per illuminazione al buio. Disponibile, su richiesta, nella versione con sportellino impostazione apribile verso l'esterno.

SC Classic modular letterboxes made of galvanised sheet metal tube, with aluminium door and black non-deformable ABS frame resistant to UV rays. Equipped with a viewing window to check for mail from the outside. Available in various sizes and colours. Suitable for people who receive lots of magazines as they can comfortably house size-A4 envelopes. The letterboxes are also supplied separately and accompanied by patented elements to facilitate modular installation. All the plates for push-button panels are equipped with a lamp holder for illumination in darkness. On request, the product can be supplied in the version with outward-opening letter slot.

Cassellare autoportante completo di mantello, pali e piastra composto da cassette della serie SC CLASSIC 400, modello SCS in alluminio preverniciato silver.  
Free-standing modular letterbox unit with shell, poles and plate, consisting of SC CLASSIC 400 letterboxes (model SCS) made of silver pre-coated aluminium.

Cassellare postale incassato su serramento composto da cassette SC6 verniciato oro e completo di rivestimento semplice, profilo coprifuga e sgocciolatoio.

Recessed fixture-mounted modular letterbox unit consisting of model SC6 gold coated letterboxes and inclusive of simple covering, gap covering profile and drip profile.

Cassellare appeso a muro composto da cassette SC7R verniciate grigio RAL, completo di mantello e piastra.  
Wall-mounted modular letterbox unit consisting of SC7R RAL grey-coated letterboxes, inclusive of shell and drip profile.

Cassellare postale incassato a muro composto da cassette SC5 verniciato nero RAL e completo di profilo coprifuga e sgocciolatoio.  
Recessed wall-mounted modular letterbox unit consisting of SC5 RAL black-coated letterboxes, inclusive of gap covering profile and drip profile.

## configura il tuo casellario configure your modular letterbox unit

Il montaggio delle cassette avviene tra i modelli della stessa serie.  
Indicare al momento dell'ordine oltre al modello il numero di cassette e la loro disposizione (base per altezza).

Il casellario può essere completato con grigliette per citofono e pulsanti per campanelli.

The letterboxes are assembled by choosing models of the same range.  
When making the order, specify the model, number of letterboxes and their arrangement (base by height).

The modular letterbox unit can be completed with intercom grilles and buttons for bells.

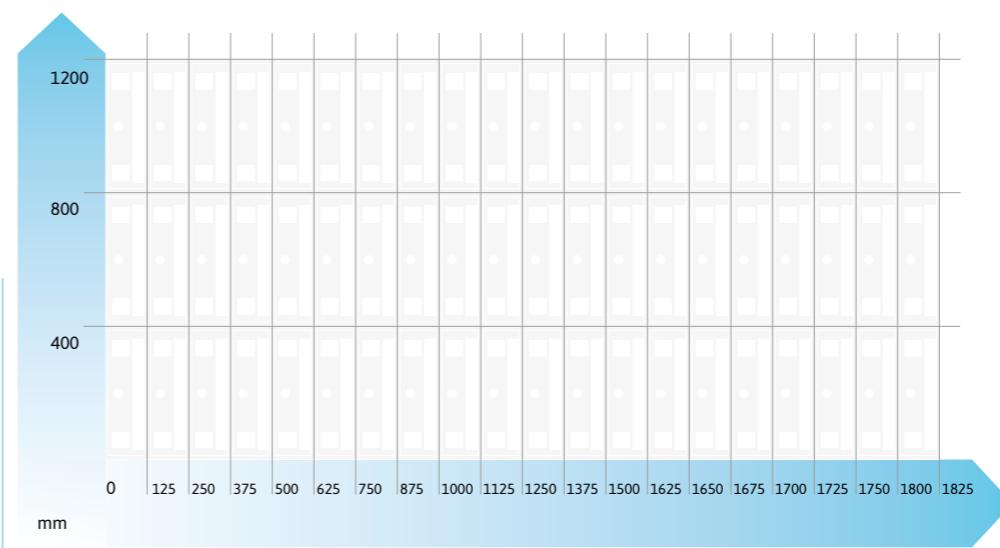

Profondità 250 mm

Importante: le misure del foro, per i casellari con profilo coprifuga incassati su muro, vanno maggiorate di 15 mm.

Depth 250 mm

Please note: the measurements of the opening, for recessed wall-mounted modular units with gap covering profile, must be increased by 15 mm.

## accessori e ricambi accessories and replacements

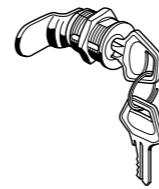

### Serrature di ricambio Replacement locks

**39-030**

Serratura in ottone cromato a cilindro di sicurezza.  
Chiavi duplicabili (numerazione da 1000).

Chrome-plated brass lock with safety cylinder.  
Duplicable keys (numbering 1000).

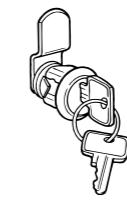

**90-010**

Serratura cromata L 20 mm, serie 93 a cilindro di sicurezza con 2 chiavi numerate (foro lamiera ø 20).  
Chiavi non duplicabili (numerazione da 9000).

Chrome-plated lock L 20 mm, series 93 with safety cylinder and 2 numbered keys (sheet metal hole ø 20). Non-duplicable keys (numbering 9000).

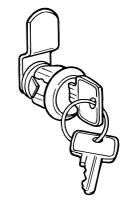

**90-011**

Serratura cromata L 11 mm, serie 93 a cilindro di sicurezza con 2 chiavi numerate (foro lamiera ø 20).  
Chiavi non duplicabili (numerazione da 9000).

Chrome-plated lock L 11 mm, series 93 with safety cylinder and two numbered keys (sheet metal hole ø 20). Non-duplicable keys (numbering 9000).

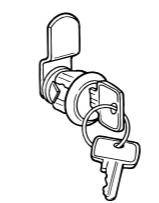

**90-012**

Serratura in ottone L 11 mm, serie 93 a cilindro di sicurezza con due chiavi numerate (foro lamiera ø 20). Chiavi non duplicabili (numerazione da 9000).

Brass lock L 11 mm, series 93 with safety cylinder and two numbered keys (sheet metal hole ø 20). Non-duplicable keys (numbering 9000).

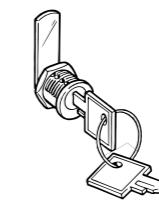

**90-020**

Serratura cromata a cilindro di sicurezza con 2 chiavi numerate (foro lamiera ø 15). Chiavi duplicabili (numerazione da 300, per bacheche solo 464).

Chrome-plated lock with safety cylinder and 2 numbered keys (sheet metal hole ø 15). Duplicable keys (numbering 300, for notice boards only 464).

**90-034**

Serratura cromata con 2 chiavi numerate (foro lamiera ø 19) con cappuccio di nylon nero. Chiavi non duplicabili.

Chrome-plated lock with 2 numbered keys (sheet metal hole ø 19) with black nylon cap. Non-duplicable keys.

**90-036**

Serratura a farfalla cromata "Printec".

'Printec' chrome-plated butterfly lock.

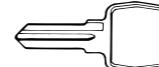

### Chiavi di ricambio (per richiedere il doppicato, specificare il numero riportato sulla serratura) Replacement keys (to request a duplicate, specify the number marked on the lock)

**90-015**

Chiave grezza (sbozzo) per serratura serie 93.

Key blank (uncut) for series 93 lock.

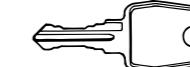

**90-016**

Chiave passepartout per serratura serie 93 (con doppia dentatura).

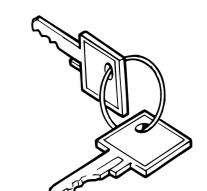

Master key for series 93 lock (double-bitted).

**90-023**

Coppia di chiavi numerate per serratura 90-020 (citare cifratura della chiave nell'ordine).

Pair of numbered keys for 90-020 lock (specify the key's biting in the order).

90-024

Chiave grezza (sbozzo)  
per serratura 90-020.

Key blank (uncut)  
for 90-020 lock.

39-031

Coppia di chiavi numerate  
per serratura 39-030.

Pair of numbered keys  
for 39-030 lock.

39-032

Chiave grezza (sbozzo)  
per serratura 39-030.

Key blank (uncut)  
for 39-030 lock.

### Kit portanome e/o spioncino di ricambio Nameplate kit and/or replacement viewing window

90-004

Targhetta PVC bicolore trasparente (84x17 mm) adatta  
per incisione a pantografo (per vano citofono illuminato).  
Transparent bi-colour PVC nameplate (84x17 mm) suitable for pantograph engraving  
(for illuminated intercom compartment).

90-005

Composto da vetro trasparente  
in policloruro di metile (80x15 mm).

Made up of a transparent polycarbonate glass (80x15 mm).

### Pulsanti di ricambio per pulsantiere citofono Replacement buttons for intercom push-button panels

PULS.61

Pulsante in ottone lucido  
per serie Ottoni.

Polished brass button  
for Ottoni range.

PULS.62

Pulsante in ottone antico  
per serie Ottoni.

Antique brass button  
for Ottoni range.

30-001

Pulsante portanome  
per serie SC Classic.

Nameplate button  
for SC Classic range.

90-009

SC7 SC7R

Composto da cornice in ABS nero, vetro trasparente,  
sostegno etichetta (37x24 mm) e targhetta portanome.

Made up of a black ABS frame, transparent glass, label support (37x24 mm) and  
nameplate label.

90-026

SC Classic

Composto da cornice in ABS nero, vetro trasparente, sostegno etichetta  
(80x16mm), targhetta PVC bicolor B/N (84x17 mm) e targhetta portanome.

Made up of a black ABS frame, transparent glass, label support (80x16 mm) W/B bi-  
colour PVC nameplate (84x17 mm) and nameplate label.

### Grigliette di ricambio Replacement grilles

30-002

Griglia nera per vano citofono (conf. 2 pezzi) per  
serie SC Classic.

Black grille for intercom compartment (2-piece pack)  
for SC Classic range.

39-002

Griglia grigia per vano citofono (conf. 2 pezzi) per  
serie Open Air.

Grey grille for intercom compartment (2-piece pack)  
for Open Air range.

90-027

Open Air 300

Composto da cornice bianca in ASA/L, vetro trasparente, sostegno etichetta  
verde (80x16 mm), targhetta PVC bicolor B/N (84x17 mm) e targhetta portanome.

Made up of a white ASA/L frame, transparent glass, green label support (80x16 mm)  
W/B bi-colour PVC nameplate (84x17 mm) and nameplate label.

90-028

Open Air 400

Composto da cornice grande bianca in ASA/L, vetro trasparente, sostegno etichetta  
bianco (113x25 mm), targhetta PVC bicolor B/N (113x25 mm) e targhetta portanome.

Made up of a large white ASA/L frame, transparent glass, white label support (113x25  
mm) W/B bi-colour PVC nameplate (113x25 mm) and nameplate label.

90-029

Serenissima

Composto da cornice grande grigia, vetro trasparente, sostegno etichetta  
(113x25 mm), targhetta PVC bicolor B/N (113x25 mm) e targhetta portanome.

Made up of a large grey frame, transparent glass, label support (113x25 mm) W/B  
bi-colour PVC nameplate (113x25 mm) and nameplate label.

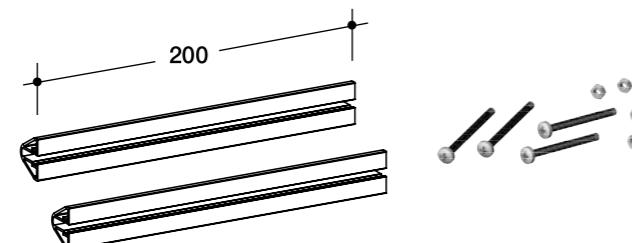

## Kit traversini per installazioni a ringhiera Bar kit for railing-mounted installation

**11-003**

Coppia di traversini da 200 mm in alluminio anodizzato silver con dadi e viti inox M4x50.

Pair of 200 mm silver anodised aluminium bars with M4x50 screws and nuts.

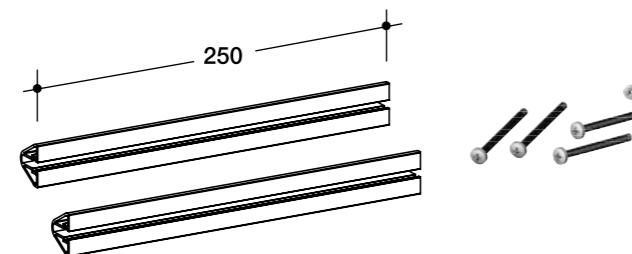

**11-004**

Coppia di traversini da 250 mm in alluminio anodizzato silver con dadi e viti inox M4x50.

Pair of 250 mm silver anodised aluminium bars with M4x50 screws and nuts.

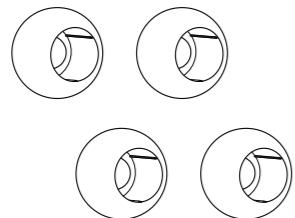

## Magneti per bacheche Magnets for notice boards

**40-904**

Magneti verdi per fissaggio avvisi (conf. 4 pezzi).

Green magnets for attaching notices (4-piece pack).

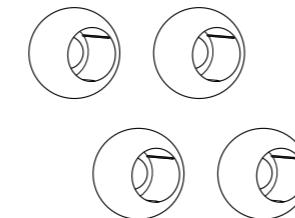

**40-906**

Magneti argento per fissaggio avvisi (conf. 4 pezzi).

Silver magnets for attaching notices (4-piece pack).

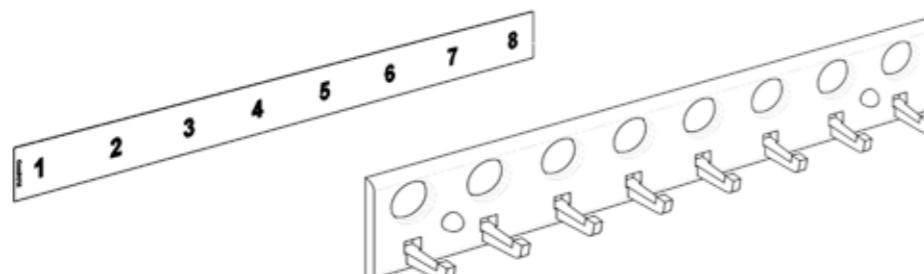

## Fascia portachiavi per bacheche Key holder strip for notice boards

**40-905**

Fascia portachiavi in ABS grigio con ganci numerati.

Grey ABS key holder strip with numbered hooks.

## Avvertenze
